Site: Potsdam, Jungfernsee
Client: BOOT Hub Potsdam
GmbH + Co. KG
Services: LPH 1-5
Duration: 2017-2020
Cost: 20 Mio. €

Innovation and Inspiration

Over 12,000 m² of office space in Potsdam will soon be home to an inspiring workspace for innovators. BFA has planned two extensive buildings to complement the SAP research and development center. The new buildings, named Workhub 1 and Workhub 2, are located on a charming campus, which will be the center of the newly developed innovation location. Workhub 1 office spaces are grouped around an atrium, continuing this campus inside, which also serves as a meeting area. Small co-working spaces with generous communal areas are on the ground floor, while the units on the upper floors are even larger and allow for development, expansion and creativity.
