

Restructuring of an Administration Building

Site: Berlin, Mitte
Client: Westbrook Partners
Service: HOAI 1-5
Duration: 2021-2023

The Grenanderhaus, comfortably situated between Alexanderplatz and Hackescher Markt and once the headquarters of the BVG, has been transformed into a contemporary, representative office building with a history. The historically protected façade offers a timeless, classic sheath for the modern interior which boasts a mix of open, flexible workspaces and workplaces as well as spacious meeting rooms, comfortable lounges and an area for fitness and yoga. Interactive communal and relaxation areas are planned to be developed on both the seventh floor and the surrounding roof terrace. Yet perhaps most alluring: The spectacular view, with the TV Tower almost within reach.
